

Certiport IT Specialist – Software Development

The Certiport IT Specialist – Software Development certification is designed for learners who want to develop **foundational knowledge of software development principles, programming concepts**, and application design. It is ideal for individuals interested in roles such as Junior Software Developer, Application Developer, Software Tester, or Programming Technician.

As organisations increasingly rely on custom software applications and digital solutions, professionals with **software development and programming knowledge** are highly valuable across many industries including technology, finance, and digital services.

WHAT TO EXPECT

Unit Breakdown

Unit	Mandatory Units
1	Software Development Fundamentals
2	Programming Concepts & Logic
3	Software Design & Development Practices
4	Version Control & Collaboration
5	Testing, Debugging & Deployment

To achieve the Certiport IT Specialist – Software Development certification, learners must complete the learning content and successfully pass the official Certiport certification exam.
