Course Spotlight:

Level 3 Early Years Educator

Register your interest here

The Level 3 Early Years Educator Apprenticeship helps learners develop the knowledge, skills and confidence to support children from birth to five years old.Apprentices will learn how to promote children's learning, development and wellbeing while creating safe, nurturing and engaging environments. Through a combination of practical workplace experience and flexible learning, they'll build the skills needed to become confident and capable early years professionals.

What you'll learn?

Throughout the Level 3 Early Years Educator Apprenticeship, learners will develop their understanding of child development, safeguarding, health and wellbeing, communication and the Early Years Foundation Stage (EYFS).
They'll explore how to plan engaging activities, encourage learning through play and support children's individual needs, while building positive relationships with children, families and colleagues.
Learning is supported through online masterclasses, e-learning, self-study, practical workplace activities and one-to-one sessions with a dedicated Skills Coach.

Where it could take you?

Apprenticeship can open the door to rewarding roles across nurseries, preschools, children's centres, reception classes and childminding settings.
Learners can develop their careers as Early Years Educators, Nursery Practitioners or Preschool Practitioners, helping young children learn, grow and thrive.
The qualification can also provide a progression route towards the Level 5 Early Years Lead Practitioner Apprenticeship, supporting further career development within the early years sector.
